Develop your knowledge and build up your personality

Dear International students,

You are very welcome at the Université Catholique de Lille where you are going to study on an exchange programme between your University and ours.

I would like you to know that we host about 4,100 international students every year in our different departments, half of them international exchange students from partner universities.

I hope that your stay will be a time for you to learn new things and that it will allow you to understand better Europe and the international context that will be your natural environment tomorrow.

Make the most of this time to listen, exchange and understand what unites us or makes us different from one another.

Throughout your stay, let's also share, if you will, a double ambition: nurturing your thoughts, your intelligence and your personality; and developing your talents as caring, compassionate citizens.

Please feel at home at the Université Catholique de Lille. Have a very good stay!

Pierre GIORGINI

Université Catholique de Lille

WELCOME CHARTER FOR INTERNATIONAL STUDENTS

The *Université Catholique de Lille* is committed to paying particular attention to foreign students who are present for all or part of their studies in any of the institutions that make up the university as a whole.

In order to give them the best possible welcome, to guarantee them a harmonious integration, and to provide the entire university community with a beneficial climate of intercultural exchange, the people of the *Université Catholique de Lille* commit:

1. To listen to every request for information from foreign students, and to answer their questions quickly, in a manner that will be comprehensible to a person coming from a different cultural background.
2. To ensure a personalized welcome for foreign students by devoting the time necessary to their settlement in Lille and integration in the host institution.
3. To recognize "all of their duties" to foreign students:
 - To give them the means to express and share their own cultural and spiritual wealth
 - To put them in contact with student associations and societies.
4. To guide foreign students and facilitate administrative procedures in regard both to the *Université Catholique de Lille* and to their exchange partners. One means of ensuring such guidance and personalized welcome will be through the designation of "peer facilitators" from among the students and faculty of the university.

In accordance with the human and Christian values which inspire them, the members of the *Université Catholique de Lille* deem the presence of foreign students, with their wealth of linguistic, cultural, and spiritual differences, to be an invitation to greater openness and global awareness.

This text is the fruit of the reflection of the working group from the International Relations Office of the Université Catholique de Lille, composed of international students and representatives of various university offices and institutions.

e A sustainable campus

Travel differently

Since 2006, Université Catholique de Lille is committed to a sustainable development process mobilizing the entire University: staff, students and visitors, schools and partners. This commitment generated the creation of the Institute of sustainable and responsible development (IDDR). This Institute manages a transversal action plan towards a sustainable and responsible campus (transport, selective sorting, carbon footprint, energy saving, living environment...).

The plan for transports is facilitated by a partnership with Transpole.

■ By public transportation

The campus is served by a regular service of 4 bus lines to go to the stations/city centre: lines 12 and 18 (stop « Université Catholique », on Boulevard Vauban), Citadines 1 (stop « Rue du Port », close to Boulevard Vauban) and 2 (stop « Rue du Port » on Rue Nationale).

In less than a 10 minute walk from the campus, you will find 3 metro stations (Port de Lille, Gambetta, Cormontaigne) that can take you to the city centre or to the main local attractions.

For bike repairs, 2 organizations offer free workshops: ADAV and Lille Sud Insertion. You can also go to the Altermove Shop.

More information: www.droitauvelo.org - www.lsi-asso.fr - www.altermove.com

Throw your garbage away intelligently

Enjoy our living environment

To enjoy one's living environment is also to respect places and preserve them from damage. On the campus, you can enjoy a nice and green architectural space, including Nicolas Boulay's botanical garden that is a unique place, rich in biodiversity.

A programme of setting up apiaries in partnership with Ville de Lille is in progress (3 hives at ISA School of Agriculture, Food Industry, Environment and Landscape Management).
